478 / 578 SERIES

FEATURES

Hotel Mode Plug & Play: Interactive stand-alone.

USB Cloning: A quick and easy way to copy the ideal settings of television to others on the property. Saves time and helps provide a consistent viewing experience for all televisions.

Hotel Channel List: Guest master channel listing of program content. This will display content in analog or HD.

Hotel TV (RJ-12/IR Pass Through): Connecting Interactive STB/SBD (Set Top/Back Box).

Hotel Logo Display with Time Out Setting: Display hotel logo bitmap files as a greeting startup display.

Remote Enhanced Active Control for Hotels (REACH/Management Solution): Used with coaxial-based solution designed to provide central-ized TV controls, basic static content management capabilities and Interactive Program Guide (IPG). The Hotel Guest, in a (free-to-guest) hotel can experience picture and content such as: hotel information, local and in-room dining, spa, meeting and events, local attractions and other simple guest convenience features. Property management will be able to update and change information on an easy Windows-based system.

Auto Volume Limiter: During initial product setup, minimum and maximum volume levels can be locked to help minimize disturbance to other hotel guests.

Power On Status Setting: Power always on, last option or standby.

Anti-Theft Battery Cover: Battery door is secured, helping to always keep batteries in the remote controller.

Auto Channel Search: Auto detect channel while in hotel mode.

ConnectShare™ (USB 2.0): Connect a thumb drive or digital camera quickly and easily. User-friendly interface allows access to videos, a music playlist and pictures via the remote.

Music Mode (Input: HDMI/PC/AV/Component): When picture is muted, allows audio feedback.

Music Mode Backlight On/Off: Background Display.

Multi-code Remote: Eliminates interference when two or more TVs are used in close proximity.

Sleep Timer: Set TV turn-off time in 30-minute intervals up to 180 minutes .

Closed Captioning: A text display of all audio content including spoken dialog and non-speech information such as the identity of the speakers and symbols for sound effects and music.

OSD Language: English/French/Spanish.

Picture-in-Picture: Display one program while another is being displayed on the full TV screen at the same time.

Clock On Timer and Alarm Key: Allows the guest to program the TV to turn on as a wake-up alarm.

Anynet + (HDMI – CEC): Samsung protocol that allows the user to control other HDMI devices connected to the TV display. Examples of these devices are DVD and Soundbars.

Soundbar Compatible: Samsung Hospitality Displays enable Soundbar compatibility by supporting HDMI-CEC. By connecting the Soundbar to the Samsung Hospitality Display with an HDMI cable, the TV audio settings and menu lock feature are automatically applied, so you don't have to set up the Soundbar separately and you can also prevent guests from changing the settings. With one single remote, guests can control both the TV and Soundbar simultaneously. The Samsung wall-mountable Soundbar allows you to offer your guests a full 3D surround sound experience through one easy-to-install device that fits into the most prestigious environment and adds a touch of elegance to your rooms.

Swivel Stand with Optional Stops: Samsung Hospitality Displays pedestal stand rotates 90 degrees in both directions with optional 20-, 60- and 90-degree stops so wherever in the room your guests are, they should have an excellent view of their TV. Swivel stand includes integrated mounting plate and bolt-down kit (4 bolts, 2 nuts, 2 washers).

Energy Saving Mode (BLU Control): Samsung's range of energy-efficient LED TVs is setting the standard when it comes to saving energy and reducing costs. Samsung Hospitality Displays are a cost-effective business solution due to their energy-efficient features and ability to decrease maintenance and management oversight.

Our Hospitality Displays offer a number of energy-efficient advantages that are designed to lower power usage and your overall energy bill. This means a 55" Samsung LED TV consumes the same amount of energy as a conventional 32" LCD TV. What's more, LED TVs from Samsung are durable, offering a long lifetime without loss of picture quality. Samsung Displays are also built with less harmful materials, so that the manufacturing and recycling processes are much more efficient and friendlier to the environment.

Pro:Idiom™: Pro:Idiom is a registered trademark of the Zenith Corporation. May be used as an alternative DRM solution on some models.

b-LAN™: Broadband Local Area Network (b-LAN) integrates LodgeNet's technology that allows television to work right out of the box in LodgeNet system without any need for terminal or cards.
