Guest Connectivity Panel with Built-in Apple® MFI Cable

With enough AV ports to support MP3 players, smartphones, tablets, personal game consoles, and laptops, Crave offers connectivity guests want. A built-in Apple® connector means guests won't need a special cable to use their favorite devices. Power is provided through the Apple® connector, two USB ports, and two AC outlets allowing guests to charge as needed.

Instant Connection

- "EZ-ON" puts your guests' video on the HDTV without any special steps by automatically detecting the guests' device

Popular Technology

- Connectivity for your guests' favorite devices including Apple®, Android™, Windows, and others

Apple® Access

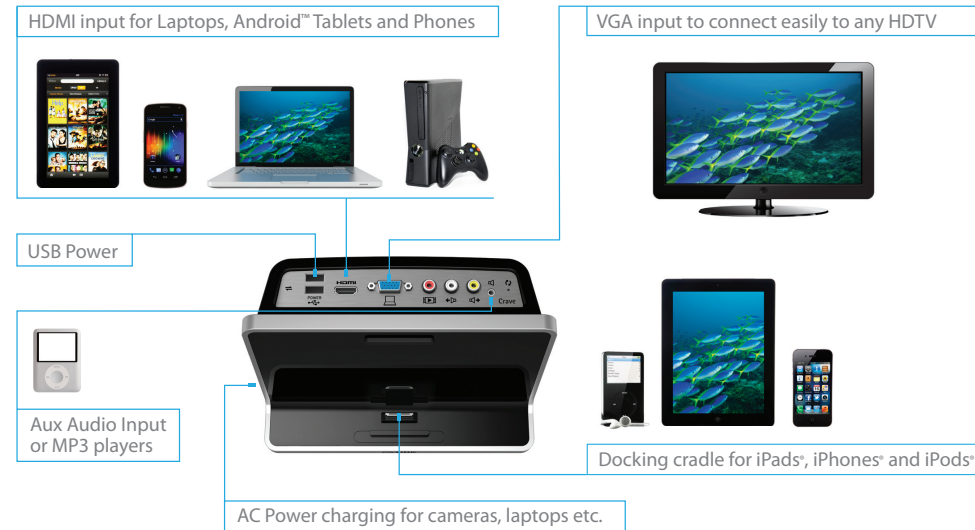

- Built-in Apple® cable allows guests to easily connect to Crave, making your room a de-facto Made for iPad™ suite
